12 March 1971

NOTE FOR: Mr. Coffey via Mr. Wattles

25X1

25X1 Attached is a very interesting letter from [redacted]  
25X1 consultant to [redacted] has made copies available [redacted]  
25X1 Gordon Stewart, Jack Iams, [redacted] and several people in the Clandestine  
Services. I am told that John Clark and Colonel White have read it and found  
it "very interesting." [redacted] says that he has had favorable comments  
from everyone who has read it outside of the Clandestine Services but has  
had no reaction at all from those to whom he has sent it within the CS. He  
has seen no indication that anyone might be inclined to charge into this  
problem area with great vigor. He would be surprised if anything were  
to happen before next year by which time the SIPS applications should be  
well along toward implementation and we should be able to look at the  
problems of administrative relief for field stations. He sees no inclination  
in the Clandestine Services to do any planning along the lines suggested by  
25X1 [redacted] I said that we ought to be looking at this together and perhaps  
we should think about a planning group made up of a couple of people out  
of the DD/S and Clandestine Services who would have access to senior  
levels of management and might begin at least to define the problem and  
the requirements. He agreed that this would be a reasonable approach  
but does not expect any enthusiasm to be generated or action to be taken.

Att.
